Yoemen Down Lampasas 6-0; Play Caldwell Hornets Friday

The Yoemen hit their mark for the second game in two games last Friday night and squeezed out a 6-0 win over rugged defensive play by the Lampasas Badgers.

The single score for the Yoemen was set up early in the third quarter by a Badger fumble on the Lampasas 12 yard line. Cameron's speeding end, Charlie Eanes pounced on the ball and after a tough battle, Back Jimmy Rettig struggled over the goal for six points.

Defens of both teams kept gains to a slow pace, aided by a damp field after a morning rain that kept the ball slick and hard to handle during most of the game.

The Badger defense was sparked by hard, accurate tackling by Tilbert Witcher. Buddy Thompson of Cameron, who gained almost at will in last week's game with Rockdale, was stopped cold by the solid Badger line.

Leading the Yoemen defense was Junor Zotz, with the backing of an alert line.

After recovering the Badger fumble which led to the victory touchdown, the Yoemen shot to the Badger four yard line with Quarterback Arnold Warren lugging the ball on a keeper play from the T-formation. Warren appeared TD-bound as he leaped high into the air over a lone Badger tackle, but he slipped on the turf on landing and smacked down on the two yard line.

Shaken by the grinding fall, Warren collapsed as he entered the huddle, but managed to stay in the game.

On the next play, Warren again carried the ball on a quarterback sneak, but the brick wall Badger defense stopped him at the scrimmage line.

Then Warren handed off to Rettig who pushed into the Badger line for a one yard gain, putting the ball on the Lampasas two foot line.

On the third down, Rettig slipped through an opening between guard and tackle and was over the goal line when Badger tackles dragged him to the turf. Thompson's kick was no good.

Offensive play by the Badgers, who ran from single and double wings, was sparked by the ball toting of Walter Hauie and hard playing Captain Darrell Eubanks.

The Cameron offense was highlighted by Warren's passing, who after only a fair start in the first half came through with deadly accuracy in the 2nd half to complete six passes out of

Since the activity has dropped, the interception point will be closed Wednesday of this week. Any farmer interested in labor assistance hereafter, should contact the Texas Employment Commission at 108 North Main Street, Rockdale, Texas.

"Eat-More-Beef" Campaign Conducted

An Eat-More-Beef campaign will be conducted by the East Texas Chamber of Commerce during the next sixty days, Hubert M. Harrison, general manager of the regional chamber, said today.

Drouth conditions in parts of the state make the drive necessary.

Parched grazing lands will force ranchers to send more cattle to market early this fall than in normal times of rainfall. The result will be large surpluses of beef.

The East Texas Chamber will ask all local chambers, utilities, railroads and other interested concerns in it 72-county area to urge beef consumers to participate in the drive.

Purpose of the campaign is threefold. It will relieve stockmen during the heavy fall selling period, aid the health of the people and put more dollars into the channels of trade.

The plan provides that one parent pay full fare, the other half fare, and that half fares be paid for all members of the family between ages of five and twenty-one years. The extra fares on such trains as the El Capitan, Super Chief and Chief will also be subject to family plan reduction. Departures are limited to Monday, Tuesday or Wednesdays.

Mrs. Saage Named Director for March Of Dimes in 1954

Mrs. Cynthia Saage will direct the 1954 March of Dimes campaign in Milam County. The appointment was announced today by Roy Griffith, chairman of the Milam County Chapter, National Foundation for Infantile Paralysis.

Griffith pointed out that the ability of the National Foundation to make available a vaccine as soon as possible, hinges on the success of the March of Dimes.

Meanwhile we must use Gamma Globulin to modify the course of polio as much as possible and pay the costs of care for the many already stricken, the chairman added.

We know that we must raise a larger sum than the $2,600,000 raised in 1953 if we are to keep abreast of polio in our state.

Realizing this, I am certain that all citizens of Milam county will follow the leadership of Mrs. Saage so that the National Foundation may accomplish these objectives.

RUST ON PEARS

J. D. Moore, County Agent

Inquiries have come to us concerning a rough, rusty discoloration on the skins of pears in the crop now being harvested in Milam County. The pear does not rot but is less valuable on the market.

This discoloration is what is known as russetting. Russettinng is largely a climatological factor and the degree of russetting is influenced by the weather conditions during the growing season. Russetting is also particularly a genetic factor in that certain varieties of both apples and pears tend to russet more than others.

Temperature, winds and humidity all play a part in influencing the degree of russetting.

We know of no practical method of controlling this condition since it is weather induced and will vary widely from season

From where I sit ... *by* Joe Marsh

One for the Books!

Noticed the Missus had a red ribbon tied around her finger at breakfast one morning last week. "What's that for?" I asked. "Your memory slipping?"

"It's not for me," she answers, "it's to remind *you*, and everybody else who asks what it's for, to contribute to the Woman's Club Library Fund. We need $200 and we figured we'd get more help if we could get people to ask *us* about it."

Well, as it turned out, the red ribbon worked just fine. The ladies are having the library all fixed up—and there's enough money for some new books, too.

From where I sit, it would be a fine thing if we had some sort of private reminder when we forget the rights of our neighbors. Like when we start telling them what *we* think is best. I may like a travel book and a temperate glass of beer while you prefer a cup of tea with your historical novel. Let's both remember not to "put the finger" on the other!

Lt. Col. Looney Now Stationed In Frankfurt, Germany

Lt. Col. Ned I. Looney, son of Mr. and Mrs. O. R. Looney, 807 N. Houston St., Cameron, Texas, is now executive officer of the Giessen (Germany) Quartermaster Depot in Frankfurt, Germany

His wife, Betty, who lives at 228 Stanley St., Chippewa Falls, Wis., will join him in Giessen in several months.

The colonel arrived in Europe from Fort Leavenworth, Kan., where he completed a course at the Army's Command and General Staff School. He had been officer-in-charge of the New York Quartermaster Market Center.

He entered active Army duty when the Texas National Guard was called into Federal service in 1940. His World War II service includes participation in the Okinawa campaign.

Colonel Looney holds degrees from the University of Texas and Northwestern University.

60,000 Young Men May Be In Draft Each Month in '54

Maj. Gen. Lewis B. Hershey, director of Selective Service, said Friday draft calls may soar to 50,000 or 60,000 a month after July of 1954.

The present rate is about 23,000 a month, which Hershey said would probably be maintained until the end of this fiscal year, ending next June 30.

'After July 1, 1954, I expect material increases—perhaps as high as 50,000 to 60,000 a month," he said during a radio interview.

Last July John A. Hannah, assistant secretary of defense for manpower, calculated the monthly call would not rise much above 40,000 in mid-1954.

Officials stated that under the present 2-year manpower system this fiscal year is one of low requirements, while the next fiscal year would be one of high requirements since so many men would be completing their two years of service and leaving.

"You wear out millions pretty fast when you rotate every two years," the draft chief said. "We're approaching a future where in two or two and half years we'll be down to only the people who get to be 18½ each month, unless you take some of the people rejected or pre-Aug. 25 fathers."

Deferments for college students will remain about the same over the next year, Hershed said.

Six Out Of 100,000 Texans Will Die By Fires This Year

Six out of every 100,000 Texans will die in fires during the 12 months ending December 31, Morris W. Parker, manager of the Texas Insurance Advisory Association, said today.

Based on figures kept for the last 20 years on Texas fire losses, about 550 Texans will lose their lives in fires in 1953 Last year, the figure was 542, and it will be at least that this year, insurance company statisticians predict.

Unless Texans become more fire-prevention conscious and quickly, the property loss this year also is expected to exceed 1952. Last year, $33,172,559 worth of Texas property went up in smoke—the highest in the state's history, excluding the Texas City disaster in 1947. By the end of this year, property loss may approach $40,000,000 Parker said.

The figures were announced by the fire insurance trade association to help encourage Texans to participate in National Fire Prevention Week, October 4-10.

Every 3 days a new diesel joins the Santa Fe fleet!

A 10-year record of "building new" on the Santa Fe

Christened with California champagne, Santa Fe's first multiple-unit diesel locomotive rolled out of Chicago on Tuesday, May 12, 1936.

It powered the first *Super Chief*.

39¾ hours later it rolled into Los Angeles—and the new age in railroading was born.

There were 3600 "horses" in that one.

Five years later, the first multiple-unit freight diesel rolled on Santa Fe rails.

There were 5400 "horses" in that one.

Today, there is more than 2,100,000 diesel horsepower on the Santa Fe—1524 mighty diesel units.

From 1943 through 1952, a total of 1261 diesel units were placed in service. *Better than one every 3 days for a 10-year record!*

And still they come! 222 in 1953!

Every diesel added, every mile of heavier rail, makes America's New Railroad a little more *completely* new. Why, enough new rail has been laid on the Santa Fe in the last seven years alone *to reach from Chicago to Los Angeles!*

All new—but always the old pride that all this building new costs you, the taxpayer, not one tax penny.

THE LITTLE RIVER PHILOSOPHER WANTS TO SEE MOVE STARTED TO IMPROVE THE TOWNS ALONG WITH THE FARM LANDS

Editor's note: The Little Rived Philosopher on his Johnson grass farm at Marlow has an odd slant this week, his letter reveals.

Dear Editar:

Every once in a while I read where there's a move on to encourage the farmer to improve his farmin methods, to build up his soil, to increase his production per acre, improve his pasture, increase the carryin capacity of his range, and I think it's a good idea,

I'm in favor of it, anything the folks in town can do to improve us folks out here in the country, I'm in favor of it, somebody ought to improve me, I don't intend to.

But I was just thinkin we oughtn't to let this get onesided, isn't there something us folks in the country can do to encourage the people in town to improve a little?

After we get the country built up are there any plans for buildin up the towns?

For example, how about a drive to build up more courtesy per clerk? The per-acre yield in the country is important, but so's the courtesy per clerk in town. How about more parkin space per car? Or more butter per slice of toast at the cafes? Or more ice cream per ice cream cone? Or more coffee per coffee cup? Or more entertainment per quarter at the picture show? Or more interestin readin per square inch in the newspapers? Or a drive to weed out dullness on the radio?

Naturally, there's not much point in plantin legumes in town, no place there for an early plow-up, but there are other phases of improvement. For example farmers are always bein urged to improve the quality of their herds. I ain't callin no names, but ain't there a few offspring in town which could stand some improvin? Ain't there a few more desirable characteristics which can be built up?

Improvement in this country ought to go hand in hand, we don't want the farms to get too far ahead of the towns. The per-acre yield doesn't want to get too far ahead of the per-acre yield. If you get a cattleman to grow blades of grass where one grew before, you want to get the bank to make two loans where it only made one before. For every herd that's improved in the country there ought to be some improvin in the family strains in town. Every time a farmer stops a piece of land from erodin, somebody in town ought to stop some mental erosion. Worn-out land ain't any worse than worn-out brains.

If you think this is a good idea, and can't think of any place to start, I'd tell you if my subscription wasn't already delinquent.

Yours faithfully
J. A.

six tries.

During the first half, he had been held to two completions in 10 tries, with one pass intercepted by the Badgers.

In the Lampasas-Cameron tussle last Friday the Yoemen made the following record:

Yards gained rushing—126.

Back	Yds. Gained	No. Times Carried	Av.
J Rettig	50	7	7.1
L. Beale	24	4	6
J. Heitman	18	2	9
A. Warren	23	5	4.2
B. Thompson	7	4	0
W. K. Leonard	4	2	2

Yards gained passing—134.

Warren threw 18 passes, completed 8 for a total of 134 yards.

Receivers	Passes Caught	Passes Missed	Ydge.
Eanes	2	5	16
Green	2	2	33
Leonard	1	1	14
Rettig	3	1	71

Heitman	0	1	0 Lampasas

134	Yds. Passing		90
253	Total Yds. Gained		139

3 for 31.5 av. Punts 5 for 43.5 av.

The Cameron Yoemen are priming for their third battle of the season Friday night when they are scheduled to meet Caldwell. The tilt will take place on the Hornet's home ground.

Both teams will open the game with an undefeated record for 1953. The Yoemen dumped Rockdale 28-14 in their season opener and followed by whipping Lampasas 6-0 the next week. The Hornets opened their 1953 season by downing Taylor 14-0 and in their second game they battled Granger to a 13-13 tie.

Although the Yoemen have been tacked as winners odds are more than even that they will meet an extremely stubborn Hornet forward wall. This was demonstrated in the Taylor game when the never let the Ducks penetrate their 20 yard line.

On offense the Hornets will probably throw quite a passing attack at the Yoemen. In their season opener with Taylor they connected with 7 out of 12 tries. Two of their four touchdowns this year have been on pass plays.

The probable starting line-up for the Yoemen will be:

Left end Charles Eanes; left tackle, Jimmy Hauk; left guard, Eddie Matyastik; center, Tom Collins; right end, Albert Mondrik; right tackle, James Posey; right guard, Junior Zotz; quarterback, Arnold Warren; left halfback, Jimmy Rettig; right halfback, Joe Lee Heitman or W. K. Leonard; and fullback, Leon Beale.

The line for the Caldwell Hornets will be Don Schigut, left end; Frank Chemelar, left tackle; Joe Massey, left guard; Clint Odom, center; Pat Rosas, right guard; Charles Kreuger, right tackle; Billy Howry, right end; Bradley Mann, quarterback; Henry Skrabanek, left halfback; Thomas Urbanosky, right halfback; and Jerry Kubin fullback.

The Hornet are coached by Coy Rodgers, and his assistant is Bill Barrington.
